

EXCAVATOR LOADER | 3DX ECO/3DX PLUS/3DX PRO

SITE MASTER

THE ONE MACHINE FLEET

SITEMASTER **OF ALL JOBS.**

Our new range of 3DX Sitemaster machines boast a number of brand new features and improvements to help you master any worksite.

IDEAL FOR EVERYONE

The world's best-selling excavator loaders help you master digging, loading, rehandling and roading from site to site.

SITEMASTER OF COMFORT.

A comfortable operator is a productive operator. With that in mind, we've designed an ergonomic environment with plenty of room in every operating position.

**SITE
MASTER
OF COMFORT**

ADVANCED FEATURES

Our Sitemaster cab provides the operator with dedicated storage space and easy to use controls.

SITEMASTER **OF CONTROL.**

The 3DX PRO has joystick excavator controls which give superior visibility to the work area. They are also easy to use and are very familiar with excavator users.

**SITE
MASTER
OF CONTROL**

HIGH FLOW PISTON PUMP

The 3DX PRO has a high flow piston pump which improves controllability and causes the engine speed to be reduced, saving fuel whilst maintaining performance.

SITEMASTER OF POWER & EFFICIENCY.

With powerful hydraulics and huge tearout forces, the JCB 3DX's excavator arm is designed to provide unsurpassed productivity, speed and control.

**SITE
MASTER
OF EFFICIENCY**

REDUCED COSTS

The 3DX PRO features Auto Idle and Auto stop which both save wear and tear and help reduce fuel usage.

SITEMASTER OF THE ROAD.

The Easyshift transmission on the 3DX PRO makes gear changing effortless. Simply twist the console lever to change gear.

SMOOTH RIDE SYSTEM

The JCB Smooth Ride System is standard on the 3DX PRO. It cushions the loader for greater comfort when roading and gives better load retention.

ECO

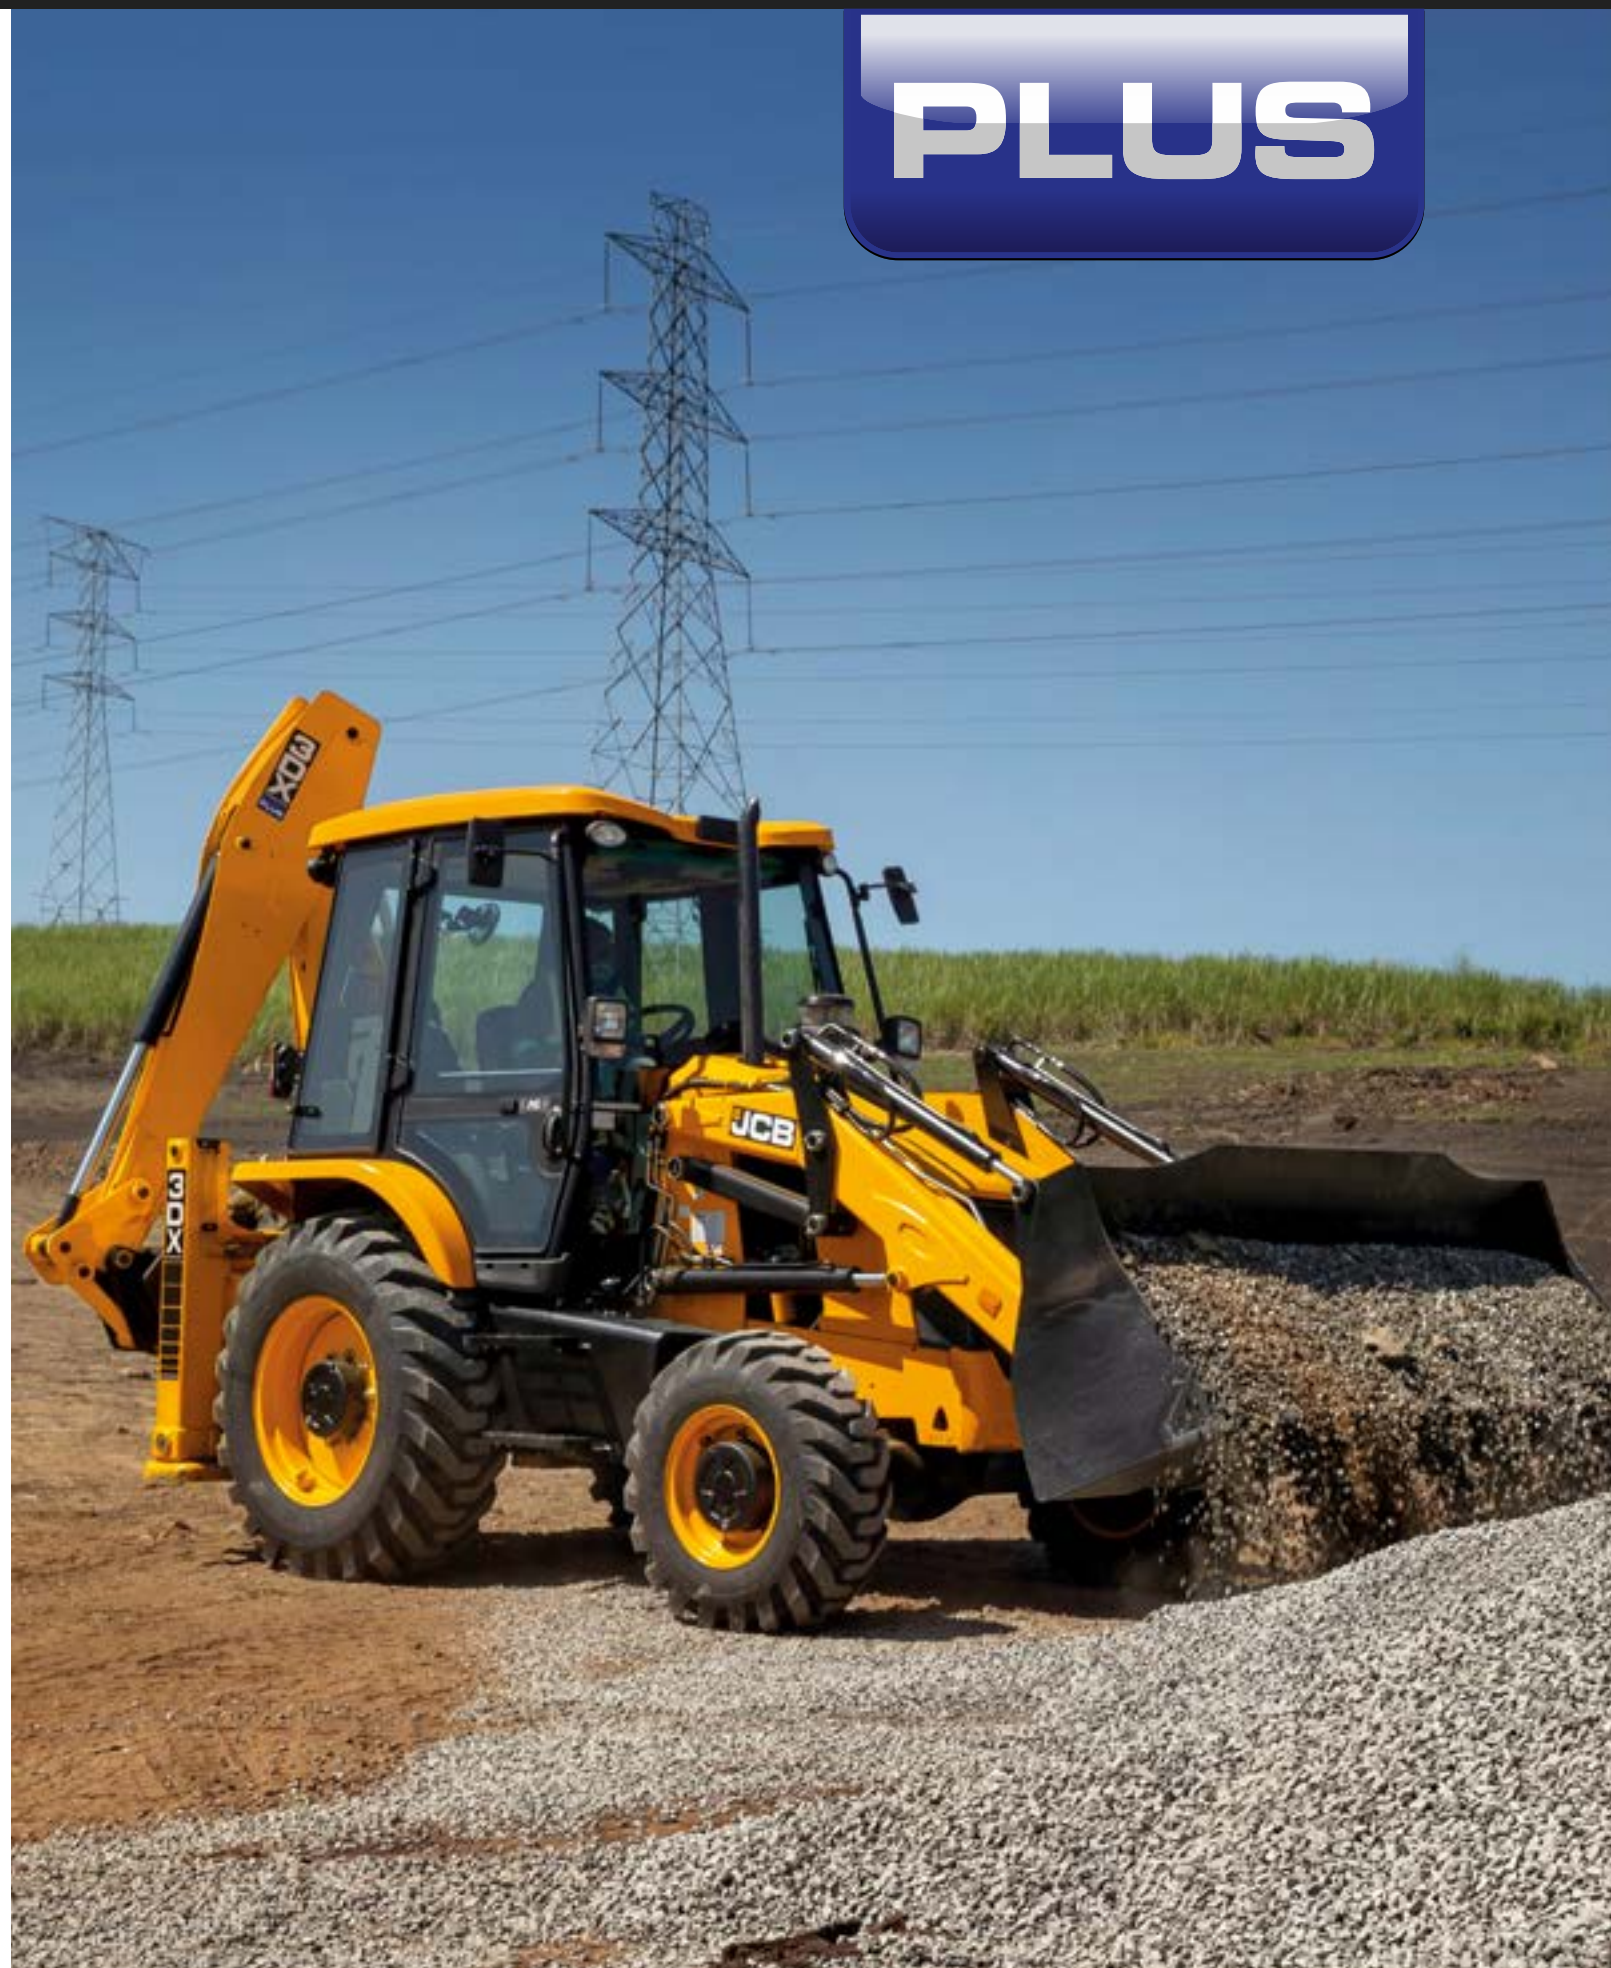

ECO

The 3DX ECO features a high performing 56kW engine, providing high torque with maximum efficiency. This makes it the ideal site machine.

PLUS

The 3DX PLUS has a powerful 68.6kW Turbo engine with high torque, providing high performance loading on site and on the road.

PLUS

PRO

PRO

The 3DX PRO is the ultimate performing machine with easy to use controls and many automation features, designed to improve productivity and fuel consumption.
